MEETING RULES OF PROCEDURE

Meetings of the Village Board are open to the public, and residents are encouraged to attend. In an effort to foster an orderly meeting process, attendees will kindly observe the following rules and guidelines.

GENERAL RULES OF PROCEDURE

Meeting format will generally follow Roberts' Rules of Order unless otherwise stated.
The Mayor shall preside at meetings. In the Mayor's absence the Deputy Mayor shall preside.

The presiding officer may debate, move and take other action that may be taken by other members of the Board.

Board members are not required to rise but must be recognized by the presiding officer before making motions and speaking. The presiding officer may waive this requirement at any time to allow for open discussion among the Board.

A Board member, once recognized shall not be interrupted when speaking unless it be to call him/her to order. If a Board member, while speaking, be called to order, they shall cease speaking until the question of order be determined, and, if in order, he shall be permitted to proceed.

There is no limit to the number of times a Board member may speak on a question.

Motions to close or limit debate may be entertained but shall require a four-fifths vote of the Board.

GUIDELINES FOR PRIVILEGE OF THE FLOOR

Members of the public shall be allowed to speak only during Privilege of the Floor or at such other time as a majority of the Board shall allow.

Speakers must stand and be recognized by the presiding officer before speaking.

Speakers must state their name for the record.

As a courtesy to other members of the public in attendance who may wish to speak, speakers should be mindful that, in the interest of time, Privilege of the Floor is limited. Preference will be given to Village residents.
Board members may, with the permission of the presiding officer, interrupt a speaker during their remarks, but only for the purpose of clarification or information.

All remarks shall be addressed to the Board as a body, or the Mayor, but not to any other individual Board member.
Speakers shall observe commonly accepted rules of courtesy, decorum, dignity and good taste.
Interested parties or their representatives may address the Board by written communications.

ADJOURNMENT

Meetings shall be adjourned by motion.

AMENDMENTS TO THE RULES OF PROCEDURE

The foregoing procedures may be amended by a majority vote of the board.

TRUMANSBURG VILLAGE BOARD
SPECIAL BOARD MEETING
NOTICE OF PUBLIC HEARING
56 East Main Street, Trumansburg, NY 14886
March 9th, 2020
7:00pm

AMENDED DATE AND TIME

PLEASE TAKE NOTICE that the Trumansburg Village Board of Trustees will hold a Public Hearing at 7:00 pm, March 5th, 2020 at the Special Board Meeting in the Main Meeting Room of the Trumansburg Village Hall located at 56 E. Main Street, Trumansburg, New York.

The purpose for the Public Hearing is to take comments on proposed Local Law 1 of 2020 titled

Proposed Local Law 1 of 2020

A LOCAL LAW providing the flexibility and ability to override the tax levy limitations established by General Municipal Law §3-c.

BE IT ENACTED by the Board of Trustees of the Village of Trumansburg, County of Tompkins, as follows:

Section 1. Legislative Intent

It is the purpose and intent of this local law to allow, if determined necessary and/or appropriate, for the Board of Trustees of the Village of Trumansburg to adopt a budget for the fiscal year commencing in 2020 that requires a real property tax levy that is in excess of the tax levy limit as defined by General Municipal Law §3-c.

It is the determination of the Board of Trustees of the Village of Trumansburg that the property tax cap enacted by the State Legislature in 2011 is patently unfair to the residents of the Village of Trumansburg and would severely curtail the ability of the Village of Trumansburg to provide necessary local services to Village residents, due in large part to the unfunded mandates being passed on unabated to local municipalities such as the Village. It also is the determination of the Board of Trustees of the Village of Trumansburg that to meet the dates by which the 2020 - 2021 budget must by State law be adopted, the Village requires the flexibility and ability which this local law would provide. Thus, it is in the best interests of the Village of Trumansburg and its residents that the within Local Law be enacted.

Section 2. Authority

This local law is adopted pursuant to subdivision 5 of General Municipal Law §3-c, which expressly authorizes a local government's governing body to override the property tax cap for the coming fiscal year by the adoption of a local law approved by a vote of sixty percent (60%) of said governing body.

Section 3. Tax Levy Limit Override

The Village Board of the Village of Trumansburg, County of Trumansburg is hereby authorized, if determined necessary and/or appropriate, to adopt a budget for the Village of Trumansburg for

the 2020-2021 fiscal year that requires a real property tax levy in excess of the amount otherwise prescribed in General Municipal Law §3-c.

Section 4. Severability

If any clause, sentence, paragraph, subdivision, or part of this Local Law or the application thereof to any person, firm or corporation, or circumstances, shall be adjudicated by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair or invalidate the reminder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, or part of this Local Law or in its application to the person, individual, firm or corporation or circumstance, directly involved in the controversy in which such judgment or order shall be rendered.

Section 5 Effective Date

This local law shall take effect immediately upon adoption, and a copy thereof shall be transmitted to the New York State Secretary of State.

Copies of proposed Local Law 1-2020, in its entirety are available at the Village Clerk's Office between the hours of 8am-12noon and 1pm-4pm Monday through Thursday and 8:00 am – 1:00 pm on Friday.

DRAFT

Hon. Rordan Hart, Mayor
Village of Trumansburg
56 E Main Street
Trumansburg, NY 14886

RE: PROPOSAL FOR PROFESSIONAL SERVICES
VILLAGE OF TRUMANSBURG - COMPREHENSIVE STORMWATER MANAGEMENT PLAN

Dear Mayor Hart:

MRB Group is pleased to submit the following proposal to assist the Village of Trumansburg with the preparation of a Comprehensive Stormwater Management Plan. The proposed plan will expand upon the efforts already undertaken by the Village and MRB Group. This document is intended to provide a framework for systemically evaluating and finding a solution to ongoing drainage issues, identifying areas requiring additional detailed evaluation, and providing a means to address future issues as they arise. Additionally, upon completion of the scope of services recommendations for grant opportunities or funding options will be presented to provide the village with an understanding of financial avenues.

I. Background

A. Village residents have experienced a number of drainage issues over the past few years. Some of this can be attributed to the changes in weather patterns where an increase in rainfall intensities, combined with the steep terrain of areas within the Village, are naturally causing increased stormwater runoff and other related issues. Historically storm sewer systems are typically designed to accommodate a minimum 10-year storm event. With some storms producing localized runoff rates in excess of the 10-year storm event, more impacts are being seen throughout New York State. Increase in the Village's impervious coverage and altering or filling in of natural drainage channels have increased stormwater runoff. The growth of vegetation at storm sewer inlets or the accumulation of excessive sediment within a drainage channel also impact stormwater conveyance. The combination of these items along with other factors are all contributing to the current issues.

B. In 2017 and 2018 a Preliminary Drainage Evaluation was performed by MRB Group. A preliminary field investigation was completed to gain a general understanding of the existing infrastructure throughout the village as well as a general understanding of stormwater conveyance. A memorandum and map dated November 2018 was prepared outlining the project findings and general recommendations. This document will be our starting point and basis for preparation of the Comprehensive Stormwater Management Plan.

C. The areas listed below were previously identified for additional evaluation and determination of possible solutions. These efforts are included in our proposal.

- East Seneca Road
- Pennsylvania Avenue
- Larchmont Drive

II. Basic Services and Compensation

Our proposed services have been broken into five major categories; Field Investigation, Drainage Area Evaluation, Legislative Policies, Design Criteria, and Comprehensive Stormwater Management Plan. Each section builds upon the other for the development of a proposed document. Due to the large scope of this project, the age of the existing infrastructure, and the immediate needs of the Village we are focusing our efforts on finding solutions for a number of the problem areas identified. It is included in the scope of work that an initial kickoff meeting be held with the Village to discuss any areas to be further evaluated. A broader brush approach will be applied to other areas in the Village which can be expanded upon later as identified and coordinated with Village.

A. Field Investigation

Upon the conclusion of the 2017 and 2018 project efforts, it was determined that a more detailed evaluation and site review was needed for several select areas. These areas included East Seneca Road and associated connecting side streets, a portion of Pennsylvania Avenue, and Larchmont Drive.

1. Kickoff meeting with village personnel to discuss intent of field investigation and discuss any additional areas for investigation.

2. As part of the field investigation culverts, drainage structures, and roadside channels will be indexed and an inventory list created. The proposed system of identifications will provide flexibility for future expansion and updates. This work will include documenting actual pipe sizes, which will be used to further advance the existing stormwater map for the village.

3. Our staff will (again) walk the streets to visually confirm the proposed drainage areas. Review available record mapping, topographic lidar data, and aerial photos to further define project details. A licensed land surveyor could be engaged at this time to provide more detailed data; however, due to the scope of the project, surveying services are recommended at a later time when an actual design project is being proposed for construction.

4. Drainage areas and sub-drainage areas are not confined by road right-of-way's or municipal boundaries. Where appropriate we will expand our field investigations however we are limited by general site access and public rights-of-way areas. If additional investigation is needed on private property we will notify the Village for possible future study evaluations and allow the Village to coordinate with the property Owners.

Subtotal Item A $7,500.00

B. Drainage Area Evaluation

Upon the compilation of the field data, we will further expand upon dividing the village into major and minor drainage watershed areas. Each area will be reviewed and studied for its unique soil and land use characteristics. This will allow us to perform a more detailed hydraulic evaluation of the entire Village and target specific areas for analysis and review. As part of this evaluation detailed drainage maps and inventory tables of existing stormwater structures will be prepared.

1. Using AutoCAD and ArcGIS, prepare an updated drainage map for the target areas being studied and the entire Village. Desktop evaluation to incorporate collected field data, record mapping, available storm sewer mapping, state and federal resource web mapping, and aerial images.

2. Using SCS (Soil Conservation Services) methodology accepted by NYSDEC and current New York State rainfall data, compute the anticipated stormwater runoff rates for the 1, 5, 10, 25, 50, & 100-year storm events within each watershed.
3. Prepare a model of the existing storm sewer systems or drainage channels along the selected road sections. Determine what storm events they are able to accommodate.
4. Evaluate the feasibility and opportunities to correct the identified drainage issues.

Subtotal Item B $21,000.00

C. Legislative Policies

Provided the Village with a draft document to establish proposed stormwater drainage policies to evaluate and address future issues. Proposed document to include current NYSDEC stormwater guidelines. Review document with the Village Board and Attorney.

1. Prepare a draft stormwater management ordinance for the Village.
2. Review drainage overlay districts or district entrance fees for parcels being developed to contribute based on equivalent acre or an Ad Valorem Charge for development.
3. Review the need to establish drainage easements and a list of resident responsibilities.
4. Coordinate with village on right-of-way maintenance and define responsibilities for municipal versus privately owned infrastructure (roadside swales, culverts, driveway culverts, drainage basins, etc.)
5. Review existing land uses and the potential development areas in relationship to the Village's Community Comprehensive Plan.
6. Engage Village Attorney with one (1) coordination meeting at the Village Hall.

Subtotal Item C $5,000.00

D. Design Criteria

The development of a community's design criteria should also be considered as part of a Comprehensive Stormwater Management Plan. These documents typically consist of the minimum construction standards and specifications for dedicated infrastructure. Proposed development plans are typically required to meet these minimum requirements. A document of this type would include items in addition to just stormwater management. Items like road construction specifications, sanitary, water, and storm sewer design guidelines, construction requirements, typical details, landscaping materials, and other general requirements.

1. As part of this proposal we will complete the design criteria sections for stormwater management, storm sewer design guidelines, and storm details. These sections along with the overall proposed document can be used as the required criteria for future developments.

Subtotal Item D $3,000.00

E. Comprehensive Stormwater Management Plan

Prepare a formal report documenting and summarizing the above information, reviewing the extent of the existing infrastructure, inventory summary tables, anticipated stormwater runoff rates throughout the Village, identify proposed drainage policies to be adopted, and funding opportunities for a list of proposed projects.

1. Inventory of the existing infrastructure studied.
2. Recommendations for proposed improvements.
3. Update drainage maps for the entire Village.
4. Identify and prioritize a list of possible projects.
5. Cost estimate for proposed improvements.
6. Draft legislative policies.
7. Review findings with the Village.

8. Make recommendations for grant opportunities.

Subtotal Item E $8,500.00

Total* Basic *Compensation*..... *$45,000.00

The cost figure shown above represents our estimated hourly efforts based on the 2020 rates currently in effect. Any additional work beyond this not-to-exceed number and outside the scope of this proposal would be an additional service reviewed with the Village. MRB Group shall submit monthly statements for services rendered during each invoicing period based on the efforts performed during that period.

III. Project Schedule

MRB Group is available to begin upon authorization to proceed. Field investigations will be weather dependent.

IV. Additional Services

The following items are not included in the above Scope of Services and Basic Compensation but can be provided at our standard hourly rates.

A. Evaluation or design beyond project area or scope listed above. A coordination meeting prior to start of work would be held with Village and a fee for including additional work can be discussed at that time.
B. Construction Design Plans.
C. Surveying services.
D. Full Design Criteria.
E. Geotechnical report or subsurface investigations.
F. Subsurface hydrogeologic coordination.
G. State Environmental Quality Review (SEQR).
H. Applications for grant opportunities or funding.
I. Investigation and coordination of private easements or development of easements.

V. Standard Terms and Conditions

Attached hereto and made part of this Agreement is MRB Group's *Standard Terms and Conditions*.

If this proposal is acceptable to you, please sign where indicated and return one copy to our office. We look forward to working with you on this project.

Respectfully Submitted,

MRB GROUP, ENGINEERING, ARCHITECTURE, SURVEYING, D.P.C.
AGREEMENT FOR PROFESSIONAL SERVICES
STANDARD TERMS AND CONDITIONS

A. TERMINATION

This Agreement may be terminated by either party with seven days' written notice in the event of substantial failure to perform in accordance with the terms hereof by one party through no fault of the other party. If this Agreement is so terminated, the Professional Services Organization (hereinafter referred to as P.S.O.) shall be paid for services performed on the basis of his reasonable estimate for the portion of work completed prior to termination. In the event of any termination, the P.S.O. shall be paid all terminal expenses resulting therefrom, plus payment for additional services then due. Any primary payment made shall be credited toward any terminal payment due the P.S.O. If, prior to termination of this Agreement, any work designed or specified by the P.S.O. during any phase of the work is abandoned, after written notice from the client, the P.S.O. shall be paid for services performed on account of it prior to receipt of such notice from the client.

B. OWNERSHIP OF DOCUMENTS

All reports, drawings, specifications, computer files, field data and other documents prepared by the P.S.O. are instruments of service and shall remain the property of the P.S.O. The client shall not reuse or make any modification to the instruments of service without the written permission of the P.S.O. The client agrees to defend, indemnify and hold harmless the P.S.O. from all claims, damages, liabilities and costs, including attorneys' fees, arising from reuse or modification of the instruments of service by the client or any person or entity that acquires or obtains the instruments of service from or through the client.

C. ESTIMATES

Since the P.S.O. has no control over the cost of labor and materials, or over competitive bidding and market conditions, the estimates of construction cost provided for herein are to be made on the basis of his experience and qualifications, but the P.S.O. does not guarantee the accuracy of such estimates as compared to the Contractor's bid or the project construction cost.

D. INSURANCE

The P.S.O. agrees to procure and maintain insurance at the P.S.O.'s expense, such insurance as will protect him and the client from claims under the Workmen's Compensation Act and from claims for bodily injury, death or property damage which may arise from the negligent performance by the P.S.O. or his representative.

E. INDEPENDENT CONTRACTOR

The P.S.O. agrees that in accordance with its status as an independent contractor, it will conduct itself with such status, that it will neither hold itself out as nor claim to be an officer or employee of the client, by reason hereof, and that it will not by reason hereof make any claim, demand or application to or for any right or privilege applicable to an officer or employee of the client, including, but not limited to, Workmen's Compensation coverage, unemployment insurance benefits or Social Security coverage.

F. SUCCESSORS AND ASSIGNS

The client and the P.S.O. each binds himself and his partners, successors, executors, administrators and assigns to the other party of this Agreement and to the partners, successors, executors, administrators and assigns of such other party, in respect to all covenants of this Agreement; except as above, neither the client nor the P.S.O. shall assign, submit or transfer his interest in this Agreement without the written consent of the other.

G. P.S.O. NOT RESPONSIBLE FOR SAFETY PROVISIONS

The P.S.O. is not responsible for construction means, methods, techniques, sequences or procedures, time of performance, programs, or for any safety precautions in connection with the construction work. The P.S.O. is not responsible for the Contractor's failure to execute the work in accordance with the Contract Drawings and/or Specifications.

H. INVOICES AND PAYMENT

Client will pay MRB Group, Engineering, Architecture, Surveying, D.P.C. for services in respect of the period during which Services are performed in accordance with the fee structure and work estimate set forth in the proposal. Invoices will be submitted on a periodic basis, or upon completion of Services, as indicated in the proposal or contract. All invoices are due upon receipt. Any invoice remaining unpaid after 30 days will bear interest from such date at 1.5 percent per month or at the maximum lawful interest rate, if such lawful rate is less than 1.5 percent per month. If client fails to pay any invoice when due, MRB may, at any time, and without waiving any other rights or claims against Client and without thereby incurring any liability to Client, elect to terminate performance of Services upon ten (10) days prior written notice by MRB to client. Notwithstanding any termination of Services by MRB for non-payment of Invoices, Client shall pay MRB in full for all Services rendered by MRB to the date of termination of Services plus all interest and termination costs and expenses incurred by MRB that are related to such termination. Client shall be liable to reimburse MRB for all costs and expenses of collection, including reasonable attorney's fees.

I. FEES REQUIRED FROM JURISDICTIONAL AGENCIES

MRB Group, D.P.C. is not responsible for nor does the Compensation Schedule established in the Agreement include fees or payments required of jurisdictional agencies. The client herein agrees to pay all application, entrance, recording and/or service fees required by said agencies.

J. P.S.O. NOT AN EMPLOYEE

The P.S.O. agrees not to hold himself out as an officer, employee or agent of the Owner, nor shall he make any claim against the Owner as an officer, employee or agent thereof for such benefits accruing to said officers, employees or agents.

K. INDEMNITY

The Owner will require any Contractor and Subcontractors performing the work to hold it harmless and indemnify and defend the Owner and P.S.O., their officers, employees and agents from all claims resulting from the Contractor's negligence in the performance of the work.
