1. **Review of Implementation Actions from existing Comprehensive Plan.** This took up most of the meeting. The group went through the list of recommended actions from the existing plan, as prepared by EDR, one by one, and determined the status of each:
 - completed (will not appear in new plan)
 - drop (no longer relevant, drop from plan)
 - keep (include in new plan)
 - keep but revise and clarify
 - not a village activity; encourage another group to undertake
 - too broad; move to Goals section

Action: BD record and consolidate these determinations, distribute to group **by August 18 (DONE)**.
2. **Review of KK's proposed revisions to EDR's character area map and descriptions.** Time did not allow for much discussion, moved to a future meeting. **Action:** All committee members please review the map and descriptions that were distributed, and respond to the questions at the beginning of the descriptions document. Please edit in place on the google drive. (descriptions doc is in the Tburg CPZR > Committee Reviews > Character Area Descriptions folder. File is named *Tburg char areas KK 20190728 - Collaborative Google Doc*.) Please **complete edits by September 3** to give KK time to incorporate them before the next meeting.

Respectfully submitted
