Erica Tauzer (EDR)

Meeting Summary:

Note: the meeting was held remotely using Zoom.

- I. Planning for 2nd Public Information Meeting. At the last meeting, the date of May 26 was proposed. This is no longer realistic in light of current events. We are now aiming for early July, or possibly September. The group will reconsider the date at its May 21 meeting. The expected sequence of events is now:
 - A. An in-depth survey of village residents will be made available in mid-May. It will be an online survey (with paper copies available for those who prefer that). It will be available for one month. The survey is designed to inform both the Comprehensive Plan and the revised Zoning Ordinance.
 - B. During the same time period, the team will continue to work on drafting the chapters of the Comprehensive Plan. A clean draft should be available on the Village website by early July, incorporating data from the survey responses.
 - C. There will be plenty of public announcements preceding these events.
- II. The remainder of the meeting was devoted to reviewing the latest draft of the in-depth survey.

Next meeting: May 21, 2020, 6:30-8:00 pm.

Respectfully submitted
Kathy Klemperer
